

Extreme Heat Work Plan: July 2025 to June 2026

Objectives

- Advocate for inclusion of extreme heat in humanitarian operations.
- Provide technical support to humanitarian operations on managing extreme heat

Engagement

While supported via the Global Shelter Cluster, the Extreme Heat Working Group intended to engage with all humanitarian stakeholders on addressing the challenge of extreme heat.

Overall Task	Action
Advocacy with a wide range of stakeholders on the importance of extreme heat in humanitarian operations.	Participate in extreme heat related-meetings and events.
	Conduct humanitarian sector-focused webinars on extreme heat.
	Collect and share information.
	Develop Policy Briefs and other advocacy products.
Technical Support to improve operational access to guidance, tools and procedures to manage extreme heat.	Develop an online catalogue of guidance, tools, and procedures on managing extreme heat in the humanitarian context.
	Provide expertise on extreme heat management to humanitarian partners.
