Malmsten Racing Lane Line PRO Technology

The improved functionality of PRO-design is based on the proven Malmsten "wave-depleting technology" design by allowing wave energy to be dispersed along the length of the lane line.

- The disc pattern, with dual function has larger holes for smoother water flow-through as well as better wave energy absorption.
- More mass on each disc affects the water position in a positive way thus more wave reduction.
- Gold PRO® and Classic PRO™ discs are wider and heavier for absorbing energy better, which means more strength to handle tough waves.
- The outer ring on the disc has been slimmed down in the middle between the blades for increased water flow-through.
- The inner ring has increased in size for catching the wave and increasing the weight of the disc.
- The new floats have a unique design with special ridges that work together with the discs to increase wave reduction. The ridge design helps to break down the wave.

Functionality

- Water turbulence control
- Superior wave reduction
- Latest PRO-discs and PRO-floats
- "Wave-depleting technology"
- Original Take-up reel – a precision tool
- Best water positioning

Environment

- Extended durability
- May be recycled at end of product life
- Harmless material with no traces of heavy metals
- Assembly process with minimum carbon footprint

Durability

- Latest industry MD polyethylene
- Softer material to avoid discomforting cracks in material
- Best color fastness 8/8
- Industry best UV-protection 8000ppm
- Best wire solution on the market, strong, safe and flexible wire, stainless steel 316. Thickness Ø 4 mm

- Optimizes Pool Conditions
- For Record Breaking
- Swimmer's Choice
- Outstanding Wave Reduction
- Improved Durability

THE DIFFERENCE

Gold PRO® is the new championship Racing Lane Line and the result of many years of R & D.

Gold PRO®

Gold PRO® Racing Lane Lines, the International Competition Standard in accordance to existing World Aquatics and LEN regulations.

Malmsten Gold PRO® is the best wave breaker and turbulence control on the market for superior wave reduction. With wave energy dampening over 90 percent it is perfect for all levels of competition as well as training.

**Malmsten Gold PRO® Ø 150 mm
Art. No. 1010012**

Gold PRO®	Discs	Official Competition line	Wave energy damping	Weight	Incl. Take-up Reel and Tension Spring
50 m	150 mm	Yes	90,50 %	96 kg	Yes
25 m	150 mm	Yes	90,50 %	49 kg	Yes

Classic PRO™

Malmsten Classic PRO™ Racing Lane Line is designed with the same wave breaking technology as the Gold PRO®. It is smaller and lighter with energy damping over 76 procent. Classic PRO™ is perfect for swimming competitions and training, water polo field markings, open water finishing lines and divisional lines.

**Malmsten Classic PRO™ Ø 100 mm.
Art. No. 1010011**

Classic PRO™	Discs	Training and Competition line	Wave energy damping	Weight	Incl. Take-up Reel and Tension Spring
50 m	100 mm	Yes	76 %	72 kg	Yes
25 m	100 mm	Yes	76 %	36 kg	Yes

Malmsten Racing Lane Line Traditional Technology

Competitor® and Gold Racing Lane Lines

Gold Racing Lane Lines

Wave damping competition lane line introduced at the 1992 Barcelona Olympics, when FINA, the International Swimming Federation, allowed a line's diameter to increase from Ø 100 mm to Ø 150 mm. A very effective competition lane line that has been in the pool at 5 Olympics and most World Championships, European Championships and other major international competitions between 1992 and 2019, when Malmsten Gold PRO® was launched.

With Malmsten Gold in the competition pool, the swimmer is offered good and fair conditions and avoids being disturbed by the motions of other swimmers. The density of the material and the rotation of the discs bring the wave to break-down inside the lane line. It will neither bounce back nor pass through. Official competition lane line in accordance to World Aquatics.

Malmsten Gold Ø 150 mm
Art. No. 1010002

Competitor® Racing Lane Lines

A real Classic! The model has been around since 1974 and is still a popular racing lane line for everyday use. Its impressive reference list up to 1990 included many Olympics, World Cups and European Championships.

Excellent wave reduction, based on the same technology as the successors Malmsten Gold and Malmsten Gold PRO®.

Malmsten Competitor® Ø 100 mm
Art. No. 1010001

TurnBoard Elite

This is an easy, smart and cost-efficient way to transform your pool into a multi-activity center

- Used for swim schools to easily divide space between groups
- Used for swim training when practicing turns
- Available in two sizes, small and large

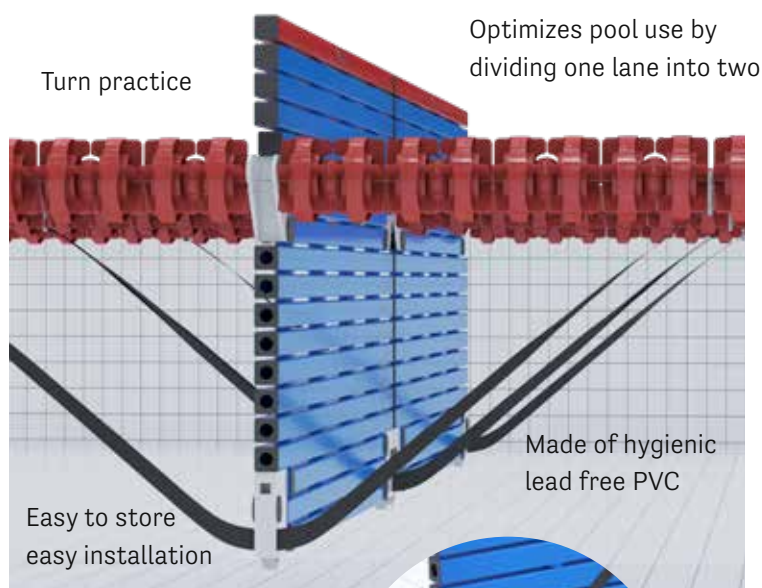

1310010 TurnBoard Elite - Portable partition wall S and L
TurnBoard Elite S

Length: 209 cm, Width: 8,6 cm, Height: 102 cm

TurnBoard Elite L

Water Polo Field of Play

Malmsten is the Official Supplier to World Aquatics, LEN Aquatics and PanAm Aquatics. We manufacture fields of play in accordance with international regulations and custom fitted to any pool dimension.

Our fields of play are manufactured with the same high-end quality as our racing lane lines. Usually, they are designed with Competitor material – 100 mm discs. Other options include our latest Classic PRO material – 100 mm discs and PRO floats, or our Gold material – 150 mm discs.

These are lightweight, in vibrant colors and with a great wave breaking technology. Each line is equipped with a take-up reel and tension spring.

Field of play consists of 2 field lines, 8 goal lines and 2 short boxing lines.

A complete field of play extends the complete length of the pool – anchor to anchor and the width of the pool for the goal line – anchored onto our water polo goals and also on the pool anchor.

Water Polo Goals

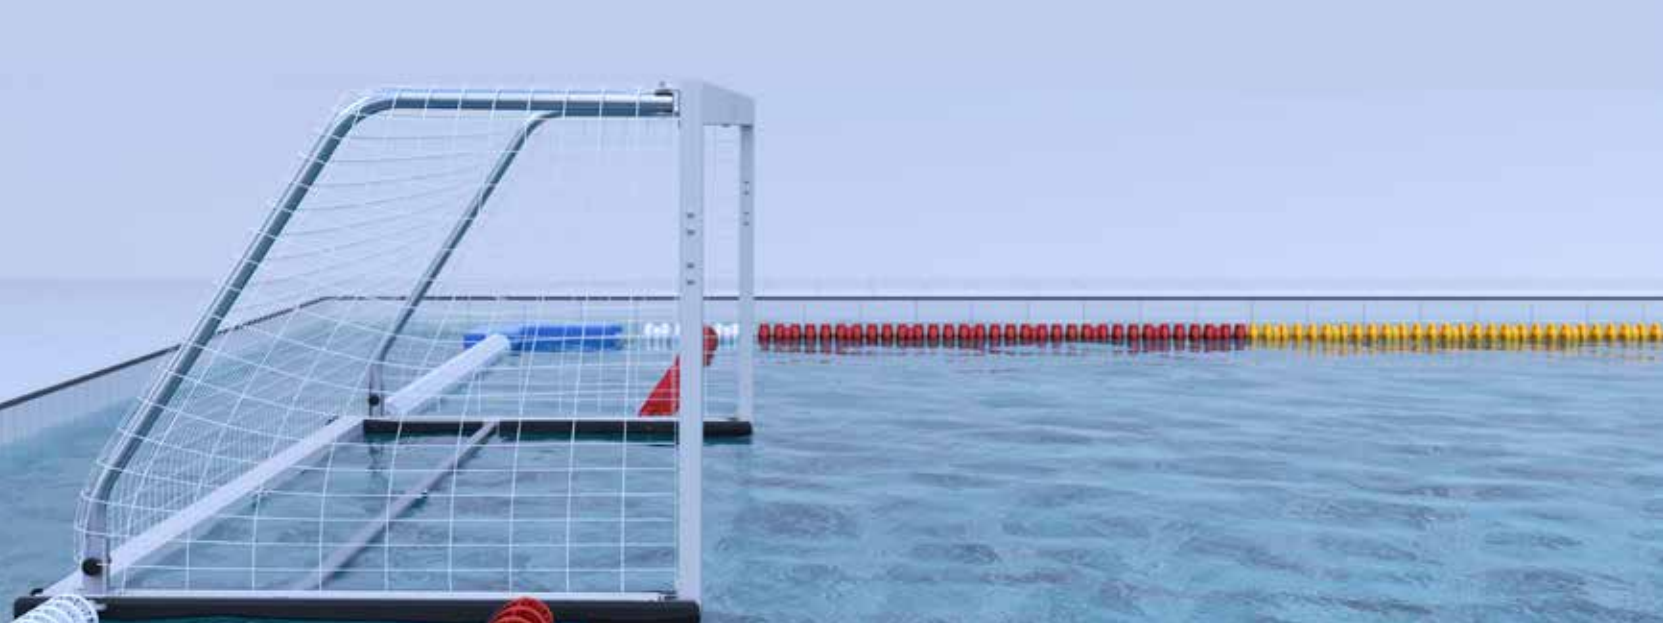

Our Water Polo Goals are designed to withstand the toughness of training and competition. Excellent water positioning and stability so that the game can be fairly played. This 3 m wide goal is the official water polo goal used in most international events and selected by World Aquatics.

1511003 Water Polo Goal 3000 x 900 x 1586 mm

1511004 Beach/Junior Water Polo 2500 x 800 x 1380 mm

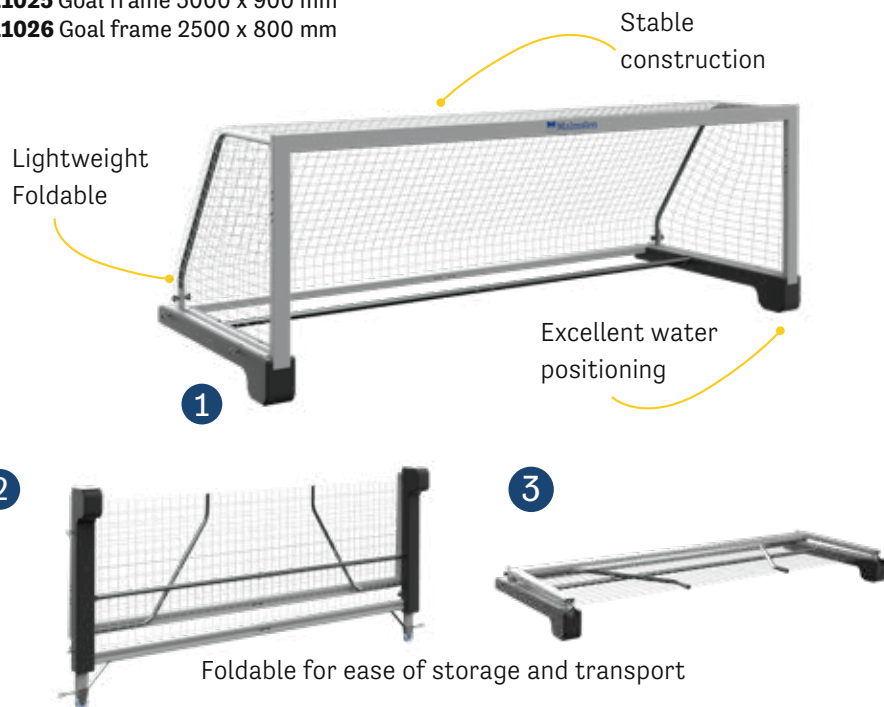

Water Polo Goal Multi PRO

With its unique design, this Multi PRO goal, is loved by water polo players worldwide. This is surely the lightest professional water polo goal on the market. It uses the same reliable frame construction as our official World Aquatics water polo goal. The floating side pontoons are made with a strong foam to ensure a lightweight solution and thus easy to bring in and out of the pool.

Foldable for storage and designed with add-on sections, where the basic design is made to fit smaller pools. Available in two sizes.

1511025 Goal frame 3000 x 900 mm

1511026 Goal frame 2500 x 800 mm

Portable and inflatable water polo goals available in 3 sizes for training and competition.

Malmsten Water Polo Balls

Malmsten Water Polo Balls are used for competition and training. Designed for great visibility and with an excellent grip, using the unique Gecko Grip.

- Perfect for training and competitions
- Hand buffed rubber
- Special compound rubber for increased grip

Malmsten The Diving Specialist

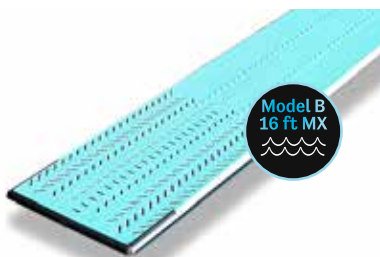

Diving Equipment

Duraflex products have been sold, installed and serviced by Malmsten since the 1990s. We have expanded our partnership with Duraflex.

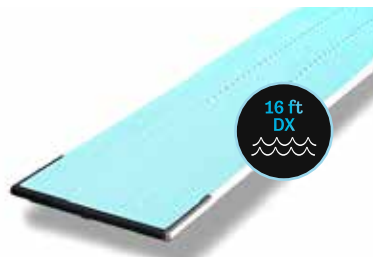

Malmsten provides the Duraflex product line throughout Europe, Africa, the Middle East and parts of Asia as well as its high-end Malmsten range.

Duraflex Diving Boards

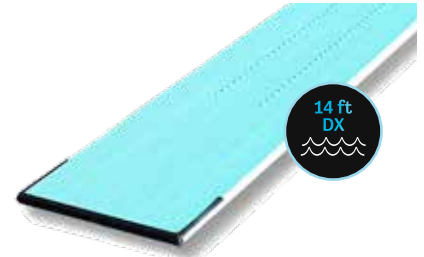

Duraflex products are considered the standard in the diving world and are used in all international, national, regional and club diving competitions throughout the world. Divers can have the ultimate confidence in this equipment, leaving them to focus on achieving their very best dives, consistently, time after time. It is important to ensure that divers train and compete with the same top-quality boards. A Duraflex diving board has to be fixed onto a Duraflex Short Stand and be installed by a certified Duraflex installer. All Duraflex diving boards utilise the latest technology to provide the very best diving boards in the world.

1110001 16 ft Maxiflex Model B (16-MX) Diving Board. 488 cm x 49,5 cm
Professional divers use

1110003 16 ft Duraflex (16-DX) Diving Board. 488 cm x 49,5 cm
Municipality use

1110009 14 ft Duraflex (14-DX) Diving Board. 427 cm x 49,5 cm
Recreational use

Diving Stands

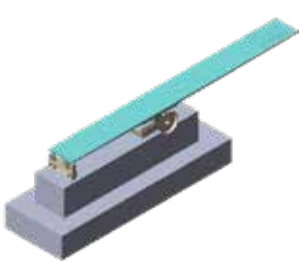

All Duraflex Diving Boards must be safely installed on a Short Stand. The Legacy Short Stand is the traditional stand and in 2022 the New Duraflex Short Stand was introduced. These short stands are made to go onto concrete, stainless steel and other platforms. The One- and Three Meter Stands are to be installed onto pool deck, adjusted in accordance with water level to deck. Each stand includes fulcrum (back) with hinges and an adjustable roller and foot wheel. The short stands may be purchased with our without safety handrails. The one-meter and the three-meter stands are with hand rails on both sides.

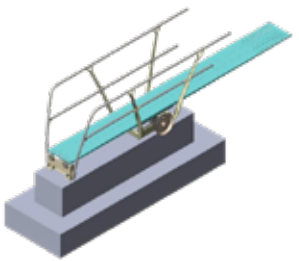

1111003 Duraflex One-Meter Stand

1110004 Duraflex Three-Meter Stand

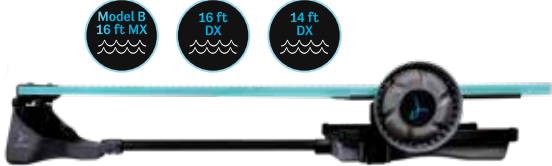

1111001 Legacy Short Stand without Handrails

1111002 Short Stand with Handrails

- 1111006** New Short Stand for 16 ft MX
- 1111007** New Short Stand for 16 ft DX
- 1111008** New Short Stand for 14 ft DX

- Virtually maintenance free
- Increased performance
- Easier fulcrum adjustments
- Easier installation

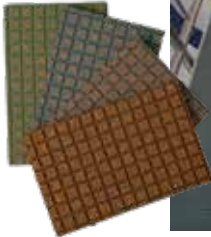

Diving Judge Chair

2410021 Diving Judge Chair. Available in 3 heights in accordance with World Aquatics rules; 2, 2.5 and 3m.

Anti-Slip Matting for diving

1112004 Treadmaster, safety mat for non-slip environments, suitable for diving platforms, treads, starting platforms and more. Made of a special rubber/cork material with anti-bacterial additives that provide protection against the growth of fungus. Strong protection against chemicals that are used in a pool environment. Salt water resistant. Available colors: Green, Blue, Grey and Sand.

Malmsten OP Gratings®

Malmsten OP Gratings® are the best choice if you want clean, efficient and safe pool gratings.

- Millimeter precision
- No loose parts, the gratings are milled in one piece/per section (1000 mm)
- Made of recyclable material to last a long time
- Hygienic, dirt-repellent and easy to lift each section and clean underneath
- No sharp edges
- Malmsten OP Gratings® are also suitable as ventilation gratings, on stairs and around water slides.

Malmsten

A Proud History of Innovation

Our History

Malmsten was founded in 1974 by Tommy and Margareta Malmsten. Having his roots in competitive swimming, Tommy saw the industry's needs. Today, our wide range covers virtually everything needed for new construction, renovation and operation of a swimming pool.

Quality

Our philosophy at Malmsten is to be the leading supplier of swimming pool equipment with the highest quality standards at competitive prices. We also want to offer the best service and consulting.

Realizing that a chain is only as strong as its weakest link, we put high priority on emphasizing the highest quality and reliability of all components in our products and installations.

About Us

We believe in long-term relations with employees, clients and suppliers. Our goal is to provide you with the best service regardless of whether you choose standard products or unique design solutions with custom manufacturing - all at competitive prices.

Our Environmental Consciousness Sustainability and Responsibility

Our environmental policy means that we strive to work for sustainable development at all levels

As a part of our environmental strategy, most of our production is located in Sweden. Racing lane lines, water slides, gratings, movable floors, stainless steel equipment, pool toys, and much more are made locally to minimize transportation and to optimize control and flexibility of the manufacturing process.

This means more efficient logistics while we are able to be flexible and control the production.

By recycling and reusing materials and by using packaging and other materials that can be recycled, the natural resources are preserved better.

Today we have solar panels installed on the roofs of the office and our warehouse buildings in order to become partially self-sufficient in energy.

The swimming pool – a place for exercise, well-being and organised activities

Our goal at Malmsten is to help our clients to create beautiful, profitable and well-running facilities.
We want to offer the best service regardless of whether you choose standard products
or unique design solutions in custom manufacturing – all at competitive prices.
