

Maintenance Instructions

A few pointers for better results and for longer product life.

- 🔧 Follow installation instructions.
- 🔧 Lock casters when tensioning wire with net and when in a storage position.
- 🔧 Rinse with clear water on a weekly basis.
- 🔧 Retighten nuts and bolts on a monthly basis. (including bolts of castors)
- 🔧 Wipe down all powder coated parts (blue) with a damp rag every month.
- 🔧 Polish all stainless steel parts with a fine grain metall polish compound if corrosion starts. Wax surface for prevention.
- 🔧 Make sure to loosen the brakes before any movement of the Storage Trolley.
- 🔧 Store trolley in a dry, well ventilated area.
- 🔧 When in use, safety wire shall be affixed either in the floor anchor or in other solid anchor position. Without anchoring safety wire, trolley may tilt due to weight of net.
