

## Referees' Structure Catwalk

Art. No. 2412009

The Malmsten catwalk is a flexible system, easy to install and to put away after the competition.

The catwalk has the length of the field of play for water polo and is 1 m wide and 0,7 m in height. It is an easy hook-on system.

For major championships, one catwalk is required along each side of the field of play (sold per unit). The catwalk has the color markings of the field of play. The color-coded matting is an easy roll-out carpet according to World Aquatics. The catwalk can be delivered in Lockable Storage boxes on wheels (sold separately). Art. no. 1514038

This platform may be used for other activities around the pool.

To purchase a complete referees catwalk you will need two units of Art. No. 1515003.

To operate and store and transport a complete catwalk please ensure to purchase 2 storage boxes Art. No. 1514038.
