

USE AND MAINTENANCE

Reference	Type	Description
5513	CISTERNA	CISTERNA manhole cover in chequered metal sheet 3+2, hot-dip galvanized, c/w angular frame 35x3, with hinges and handle, set-up for locking. Pedestrians loading class.

INSTALLATION

INSTRUCTION:

Installation must be carried out by expert personnel equipped with suitable equipment for lifting heavy loads.

If the manhole cover weighs 30 kg or less, it can be moved by hand, though the assistance of two operators is recommended.

- 1 - Make sure that the installation surface is intact and capable of withstanding the load to be applied on it.
- 2 - Use a tool (flat-head screwdriver, chisel, trowel, etc.) to bend downwards the press-formed tangs on the frame.
- 3 - Prepare a concrete base at least 40 mm thick above the sump unit.
- 4 - Place the frame along the outer edges of the hole to be covered, while ensuring that the tangs are properly buried in the concrete base.
- 5 - Allow enough time for the concrete material to set (follow the manufacturer's instructions).

ADVICE:

- If the concrete base cannot be made for measurement-related reasons, the holes on the frame can be used to fasten the element with anchor bolts.

WARNINGS

- Strictly observe all the manufacturer's instructions described in this document.
- Do not use the product in ways other than those for which it was intended.
- Do not in any way tamper with the product or any other component.
- Make sure that the product has no structural defects; if it does, immediately notify the supplier.
- Make sure that the type of item matches that requested by the designer.
- Make sure that parts designed to be buried in cement are free of residues of oil, grease, glue, etc.

MAINTENANCE

This product does not require any specific maintenance, nonetheless the hinges should be checked at least once a year and cleaned, if necessary.

DISPOSAL

Regarding disposal, consult the applicable regulations for recovering any materials compatibly with the environment, and observe all local regulations.

Moreover, we recommend contacting a specialised waste disposal company.
