The **Turbo Hydro X5** Jet Power Washer is cordless, light, and has 5 times more pressure than a yard hose. It's great for quick, powerful cleaning anywhere.

What Does the Turbo Hydro X5 Jet Power Washer Do?

The **Turbo Hydro X5** Jet Power Washer is a portable, cordless cleaning device that has the power of a pressure washer but doesn't have the hassle of gas, cords, or heavy tools.

It has a 350 PSI TurboJet stream, which is up to 5 times stronger than a yard hose and cuts through dirt, mold, and grime in seconds.

You can connect it to a garden hose or just drop the intake line into a bucket, sink, pool, or lake. This makes it great for cleaning at home or when you're not connected to the internet.

With a 21V portable battery that can run for up to 30 minutes, the Hydro X5 lets you clean quickly and easily anywhere without having to worry about cords. This tool is great for walls, patios, decks, cars, RVs, and more because it's light and easy to use with one hand.

In what ways does the Turbo Hydro X5 Jet Power Washer work?

The **Turbo Hydro X5** Jet Power Washer cleans quickly and effectively anywhere by mixing high-pressure water flow with the ease of not having a cord.

The 21V rechargeable battery (3000mAh) powers a 350 PSI TurboJet stream that gets rid of dirt, mold, and grime in seconds. This is up to five times more pressure than a regular yard hose.

It has two water sources, so you can connect it to a yard hose for a steady flow of water, or you can drop the intake hose into a bucket, sink, pool, or lake to make it completely portable.

With three spray nozzles that can be switched out (0°, 15°, and 40°), it's simple to switch between a narrow jet for tough spots, a medium spray for general cleaning, and a wide rinse for surfaces that are more delicate.

When you add the Turbo Foam Cannon, you get thick, clinging suds that clean your car or yard like a pro, and you can do it all with one hand thanks to its light weight.

The pros

Clean up your decks, fences, and siding: Quickly blast away years' worth of dirt, mold, and algae. You can clean up your outdoor areas with Hydro X5's strong stream without having to use steps or carry heavy tools.

Clean your gear anywhere, without a hose: Even if you don't have a straight hose hookup, Hydro X5 will still work for RVs, boats, bikes, and camping gear. Drop the input line into a bucket or lake, and you can clean without being connected to the power grid.

Get Your Patio Ready in Minutes: With Hydro X5, your patio is quickly ready for guests, even if the furniture is dirty or the grill is greasy. It's the best way to make outdoor areas look new again before a party without having to scrub for hours.

Reach Gutters and Windows Without Strain: No more dangerous ladders and hard work that hurts your back. You can easily work on gutters, windows, and other high surfaces from the ground with Hydro X5's strong spray.

With just one click, you can go from Gentle to Jet. With three spray modes at your hands, you're always in charge. In seconds, you can switch from a gentle rinse for cars and glass to a strong jet for roads or concrete.

Get the same level of detail work done at home: Using Hydro X5 with the Turbo Foam Cannon will make suds that are thick and stick to the skin. You'll get a professional clean

without having to pay a lot of money. This includes everything from sparkling cars to spotless patio furniture.

How to Use the Power Washer Turbo Hydro X5 Jet?

Charge the Battery: Make sure the 21V rechargeable battery is fully charged before attaching it firmly to the unit. This will give you cordless cleaning power.

Pick a source of water: If you connect the intake line to a garden hose, water will flow continuously. You can also drop the hose into a bucket, sink, pool, or lake to clean while you're not connected to the grid.

Pick Out the Correct Nozzle: Pick from the three spray nozzles (0°, 15°, and 40°) based on what you need to clean: a tight jet for tough spots, a medium spray for everyday use, or a wide rinse for surfaces that are easily scratched.

Start Clean: Just turn on the Hydro X5 and you can clean with just one hand. You can quickly switch between spray modes to get a gentle rinse or a deep clean.

Easy to Store: When you're done, put everything neatly into the hard storage case to keep your washer and its parts in order and ready for the next time.

How much

- You can find the best Hydro X5 package for your cleaning needs and cash at unbeatable prices.
- Turbo Jet HydroX5 1X – \$111.10 (50% OFF): Solo Blast Unit, great for people who have never used one before.
